

## Light Duty Electric 240 VAC Self Pump Out Kit

Part No: **08447**

A 240v electric LeeSan self pump out kit for discharging to Sanitary Stations, Quayside Sewage Tanks or direct to Foul Sewer.

Light duty electric pump kit allowing owners to economically pump out their own boats holding tank quickly and easily. Also very useful where no commercial facilities are available.

The units are supplied with all fittings necessary self contained pump box arrangement. This unit includes 2 metres of suction hose and 10 metres of lay-flat discharge hose. The latter, when coiled, is only 229 mm (9") diameter by 63mm (2½"). Additional lengths of lay-flat hose and connectors are available.

The hose to deck connection is a screw-in sight glass connector, to fit the international standard deck fitting.
