

Drainminor

PUMP A Pump Technology Ltd.
 Group Company
TECHNOLOGY LTD

The **Drainminor** is a fully automatic waste water pumping system suitable for domestic and light commercial installations where gravity drainage is not possible. This unit is designed to pump waste water from a Commercial/Industrial sink, wash basin, utility sink or any situation where waste water needs to be collected and pumped to the drainage system.

The perfect solution for:

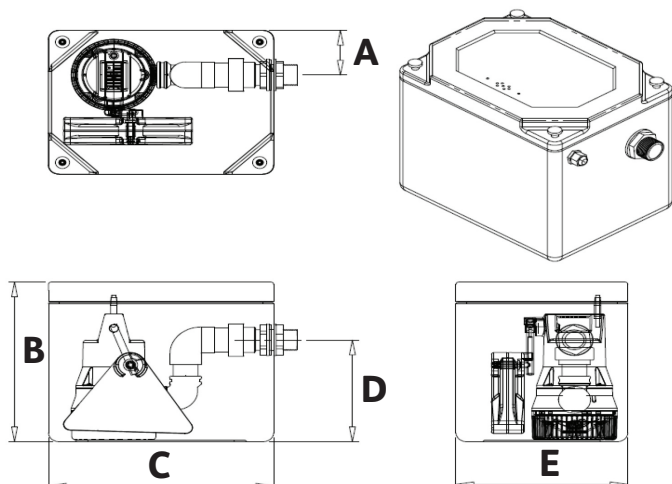

- Showers
- Dishwashers
- Sinks
- Washing machines

The **Drainminor** should be positioned on a firm level surface. The unit must be located lower than the outflow of the appliances served so as to provide a gravity fall into the unit.

Part No: **60137**

Dimensions

A B C D E
 90 322 380 205 290 Dimensions in mm

It is extremely important to site the **Drainminor** with access in mind for maintenance

Technical Specifications

Power Supply Voltage	240ACV
Full Load Current	11.4 A
Max Head (Closed Valve)	7 mtr
Max Flow Rate	1.7 L/s
Solids Handling	10 mm
Minimum Invert Height (Floor to Centre)	240 mm

Pump Curve
