

# Efflu Maxi 80 Single

The **Efflu Maxi 80** is a fully automatic sewage waste pumping system suitable for domestic and commercial installations where gravity drainage is not possible. This unit is designed to pump waste from toilets, commercial/industrial sinks, wash basins, utility sinks or any situation where waste water needs to be collected and pumped to the drainage system.

The perfect solution for:

- Showers
- Sinks
- Glass washers
- Dishwashers
- Washing machines
- Toilets

The **Efflu Maxi 80** should be positioned on a firm level surface. The unit must be located lower than the outflow of the appliances served so as to provide a gravity fall into the unit.

It is extremely important to site the **Efflu Maxi 80** with access in mind for maintenance

Model:	80E	80D
Part No:	60142	60143

## Dimensions

Dimensions in mm

## Technical Specifications

Model	80E	80D
Power Supply Voltage	240ACV	3ph
Full Load Current	7.1 A	2.2 A
Max Head (Closed Valve)	7 mtr	7 mtr
Max Flow Rate	13 L/s	13 L/s
Solids Handling	70 mm	70 mm
Minimum Invert Height (Floor to Centre)	180 mm	180 mm

## Pump Curve
