

HeadMaster

The LeeSan **HeadMaster** is an extremely reliable, attractive and comfortable porcelain marine toilet, with all the styling of a domestic model.

The straight back, contemporary design of the Headmaster cleverly conceals all of the plumbing and the macerator mechanism to give a clean and smart appearance to your on-board bathroom

Two user controllable settings help manage your water consumption.

The “Normal” button allows you to add flushing water and evacuate the toilet bowl at the same time.

The “Dry Bowl” buttons allows you to either add more water or empty the bowl for dry bowl sailing when under way.

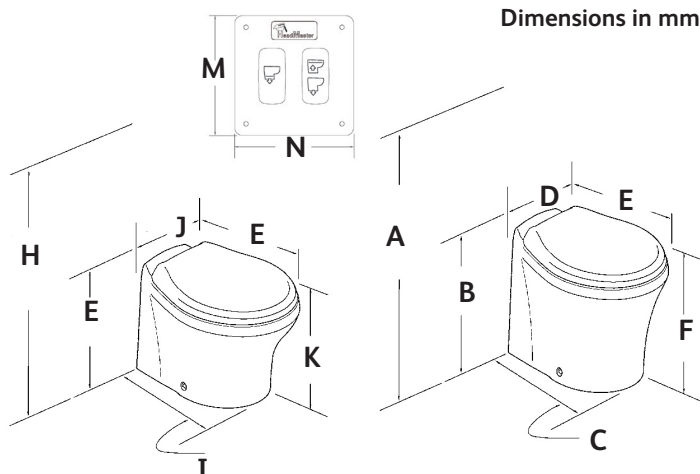

Part No:	12VDC	24VDC
Std Height	09083	09084
