

- Peristaltic pump
- Manufactured in Marine Grade aluminium (AS605)
- Self Priming & can run dry
- Available in 400V
- Pump capable of handling abrasive, shear-sensitive products with long fibre and solids.
- Seven pump sizes, different port options and hose material types, allow for individual adaptation to application.
- Choice of frames and motors.
- Very good suction properties - up to 9.5m lift.
- Constant pump capacity during entire hose life.
- Still highly efficient when handling very viscous media

Pump LS40HP

Part No. LS40HP

Dimensions:

Height H = 432mm
Length L = 678mm
Width W = 390 mm

Data:

Capacity: 160 l/min
Motor power: 4.0 kW
Weight: 55 - 65 kg
Max suction height max: 9.5 m
Max discharge length: >600 m
Max pressure height: >40 m
Connection: 2.5" BSP
