

## Light Duty Self Pump Out Kit

Part No: 01019

### DIMENSIONS

Height	610 mm (24")
Width	560 mm (22")
Depth	250 mm (10")
Weight	10 kg

### PERFORMANCE

Inlet	38 mm (1½")
Outlet	38 mm (1½")

### Max horizontal Pipe

Run at No Head	35 m (110')
Dry Prime Lift	1.75 m (5' 6")
Total head	5 m (16')
Flow Rate	10 GPM

### FEATURES:

For discharging to Sanitary Stations, Quayside Sewage Tanks or direct to Foul Sewer.

Hand operated kits allow owners to economically pump out their own boats holding tank quickly and easily. Also very useful where no commercial facilities are available.

Pump-out units are supplied with all fittings necessary and the foot held pump mounting arrangement doubles as stowage! mounting for the hoses etc. The sets incorporate 2 metres of suction hose and 10 metres of lay-flat discharge hose. The latter, when coiled, is only 229 mm (9) diameter by 63mm (2½). Additional lengths of lay-flat hose and connectors are available.

The hose to deck connection is a screw-in sight glass connector, to fit the international standard deck fitting. Alternatively, a push-in probe connector is available if preferred.
